ABOUT ME

Hi. My name is Nataliya Rodionova. I have studied Design at Marangoni Institute in Milan. After graduating I worked as a stylist and seller in a Multicultural capital of Fashion and then after the pandemic I worked for 5 years as a freelancer in Web and Graphic Design. In 2022, I moved to Berlin. I am now in my final phase of the DCI course in Web Development and I am searching for a Job as a Web Developer. I am sure that my sales experience, creativity, and design skills can benefit a lot to the company and help to make the website or application very unique.
